Junior Ranger Summer Day Camps
San Antonio Missions National Historical Park

Three days. Three different adventures.

Enter for one or for all three!

Camps are open to kids entering the 6th grade.

Go to www.nps.gov/saan/camp_entry.htm for official rules!

Day 1: Archaeology - Wednesday, June 12, 2013
Spend a day digging with archaeologists from the UTSA’s Center for Archaeological Research. Participate in a realistic mock-dig on the grounds of Mission San Jose. You will excavate, clean and catalog artifacts just like the pros!

Day 2: The San Antonio River - Wednesday, June 19, 2013
Get up close and personal with the San Antonio River. Join experts from the San Antonio River Authority to test water quality, paddle in the newly opened Mission Reach, and learn all about this amazing environment. Also learn how you can protect our most precious resource...water.

Learn about frescoes, petroglyphs, textiles, and more! Participants will get a behind the scenes tour of the Latin American art collection at the San Antonio Museum of Art. They will also enjoy a special tour of Mission San Jose and Mission Concepcion. If art is your thing, this is the day for you!
